FLOORS AND BASEBOARDS

DAILY/WEEKLY/MONTHLY

SUPPLIES:

KAY® QSR Heavy Duty Degreaser Solution

KAY® QSR Freezer/ Cooler Cleaner

KAY® SolidSense™ FloorCare

Clean Sanitizer-Soaked Towels

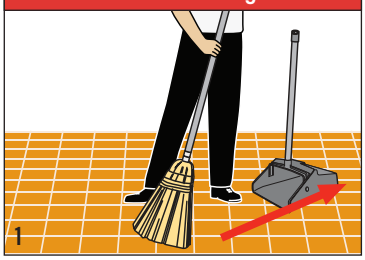

KAY® Power Pad

Other supplies needed:
Broom, Dust Pan
Wet Floor Sign
Clean Mop, Bucket & Wringer
Deck Brush

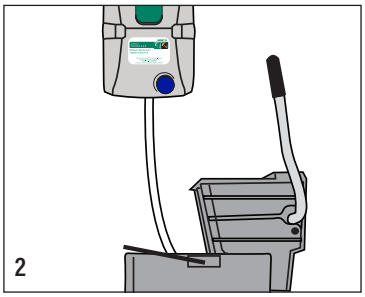

NOTE: Floors should be mopped at least 3 times per day

SolidSense Floor Care includes green and yellow blocks. These are designed to be alternating products. Use yellow, then fill dispenser with green and repeat.

FLOORS—Before cleaning

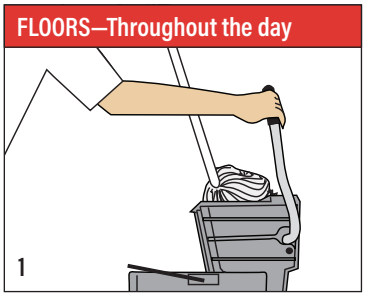

- Wipe up liquid spills
- Sweep floor in one direction; pick up debris with dust pan
- Always mop at least 15 minutes before peak hours to allow time for floor to dry

- Fill clean mop bucket with fresh **hot** (110-120°F) FloorCare Solution from dispenser
  NOTE: Make fresh Solution when FloorCare Solution in mop bucket becomes visibly soiled

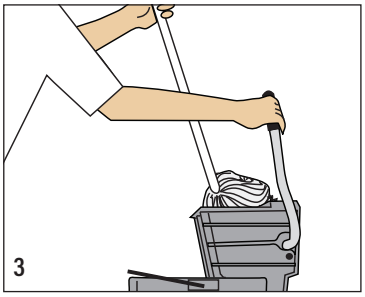

FLOORS—Throughout the day

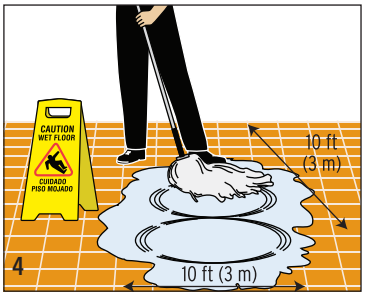

- Dip mop in FloorCare Solution and wring out

- Place wet floor signs around perimeter of area being cleaned
- Damp mop in small sections using "figure 8" motion
  NOTE: Use a different mop and bucket in lobby and back of house

- Dip mop in FloorCare Solution and wring at least once per section

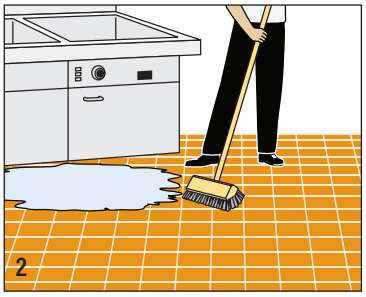

- Continue until entire floor is mopped
  NOTE: Remove wet floor signs when floor is completely dry

FLOORS—At closing

- Place wet floor signs around perimeter of area being cleaned
- Use a wet mop to liberally apply fresh FloorCare Solution

- Deck brush in front of fryers and grills nightly; other areas weekly

FLOORS AND BASEBOARDS (CONTINUED)

DAILY/WEEKLY/MONTHLY

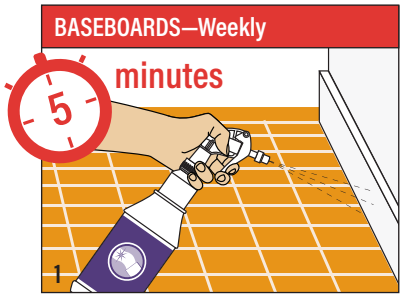

- Mop up soiled Solution; move to next area

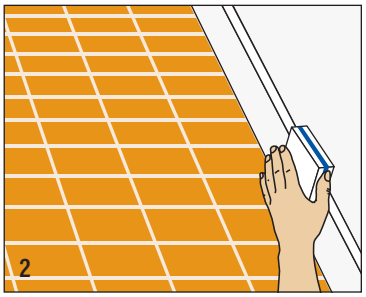

NOTE: Remove wet floor sign when floor is completely dry

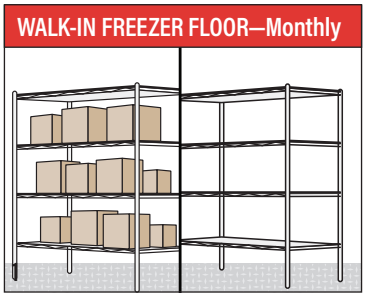

- Rinse floor cleaning tools at mop sink and hang up to air dry before returning to storage

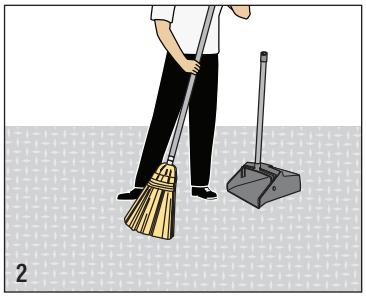

- Spray baseboards with Degreaser Solution; let stand 5 minutes

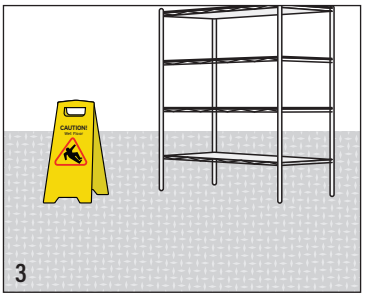

- Use a moistened Power Pad to wipe baseboards clean

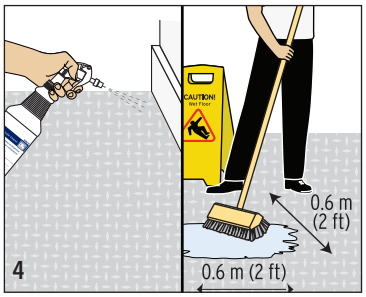

- Remove items from shelving on one side of freezer and transfer items to shelving on the other side
- Pull empty shelving away from wall toward center of freezer

- Sweep floor behind empty shelving section starting in rear corners and working from sides into center and toward door

- Put out wet floor signs in a visible location within the freezer

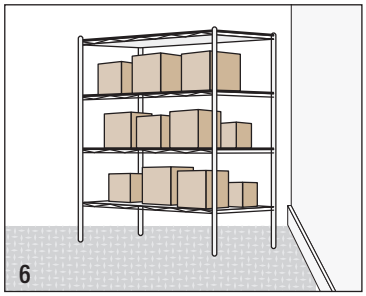

- Spray a small 2' x 2' section of floor behind shelving section with Freezer/Cooler Cleaner and deck brush starting in rear corners and working from sides into center and toward door

- Use a slightly damp mop to wipe up excess product

NOTE : Wring out mop completely before using; wet mops can leave water on the floor, causing a potential slip hazard, or wet mops may freeze to floor in a walk-in freezer

- Push shelving back against the wall; replace items removed from shelves and repeat cleaning another floor section until entire freezer is complete
