UTENSILS AND SMALL EQUIPMENT

DAILY

SUPPLIES:

KAY® SolidSense™ All-Purpose Super Concentrate (APSC)

KAY® SolidSense™ Sanitizer

KAY® SolidSense™ Sanitizer Solution Spray Bottle

Clean Sanitizer-Soaked Towels

KAY® NO-SCRATCH™ Pads

Other supplies needed:
Small Wares Cleaning Brush
Spatula

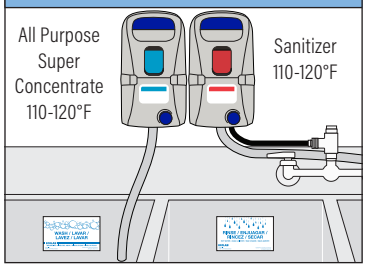

IMPORTANT: Any utensils that come in contact with food products and sit at room temperature must be washed, rinsed and sanitized every 4 hours. This does not apply to wares that are used for hot holding. These items, along with spray bottles and squeeze bottles, should be washed, rinsed and sanitized when they become empty.

BEFORE CLEANING

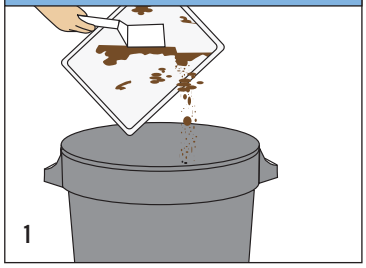

- **Wash each sink compartment** with APSC Solution and a clean sanitizer-soaked towel; discard towel into soiled towel bucket after use
  NOTE: For heavier soil build up, a stronger cleaning Solution might be necessary, such as Degreaser
- Rinse; wipe with a clean sanitizer-soaked towel
- Discard towel into soiled towel bucket after use

SINK SET UP

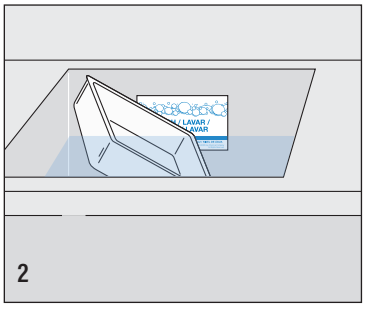

- Middle sink should remain empty for rinsing
  NOTE: Dispense Sanitizer Solution at recommended temperature above, however, when testing ppm of Sanitizer, allow Solution to cool to 75°F; follow Testing Sanitizers KAY Card for detailed steps

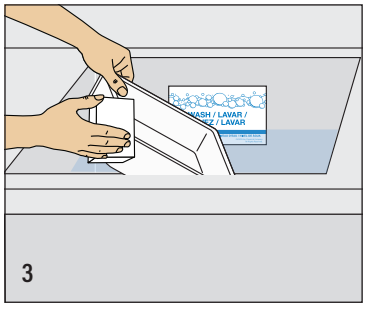

DAILY

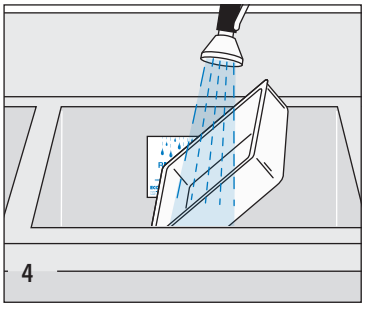

- Scrape food soil into trash

- Place wares in **hot** (110-120°F) APSC Solution
- Allow heavily soiled items, such as UHC wire racks and trays, to soak for 10 minutes

- Clean with NO-SCRATCH pad or small wares cleaning brush

- Rinse items in clean, **hot** (110-120°F) water from tap or sprayer

UTENSILS AND SMALL EQUIPMENT

DAILY

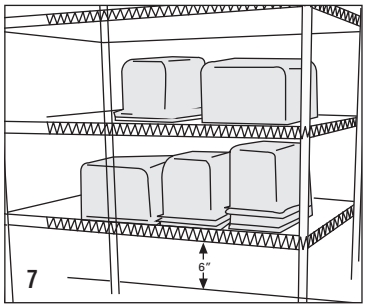

1 minute

- Place in Sanitizer Solution for a minimum of one minute
- Items that cannot be completely submerged should be rotated so all surfaces come into contact with Solution for at least one minute

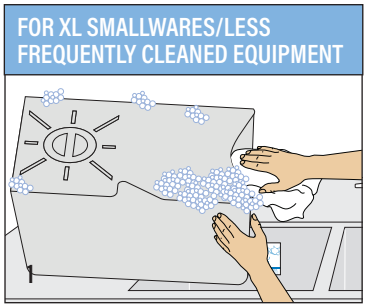

- Remove items; set utensils and small equipment upside down and trays on edge, in self-draining position on a clean sanitized surface
- Allow to air dry

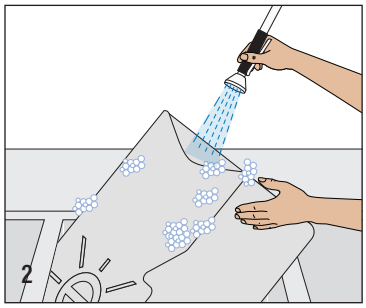

- Store clean and sanitized items properly, at least 6 inches (15 cm) above floor

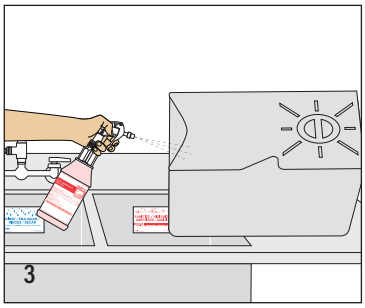

FOR XL SMALLWARES/LESS FREQUENTLY CLEANED EQUIPMENT

- Fill large item with fresh, hot APSC Solution
- Scrub all sides with sanitizer-soaked towel, pad or brush; ensure all surfaces are cleaned

- Rinse all sides of large item under faucet or sprayer to remove Detergent

- Rotate item as described above OR prepare a spray bottle of SolidSense Sanitizer Solution and spray all surfaces
- Allow all surfaces to remain wet for a minimum of one minute to sanitize
- Allow to air dry
