BEFORE CLEANING

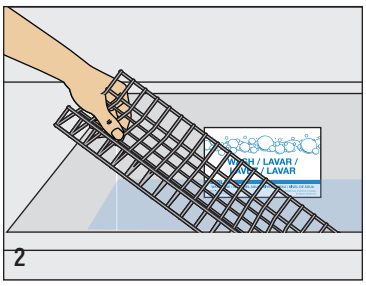

- Press **CLEAN MODE** button; unit will display **ENTER CLEANING MODE?**
- Press **CHECK MARK** to continue

EVERY 4 HOURS

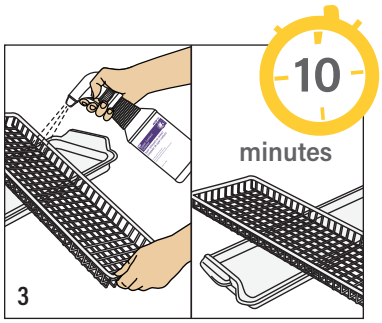

- Remove and take trays and racks to 3-compartment sink or warewash machine

  NOTE: If using a warewash machine, skip steps 2-4

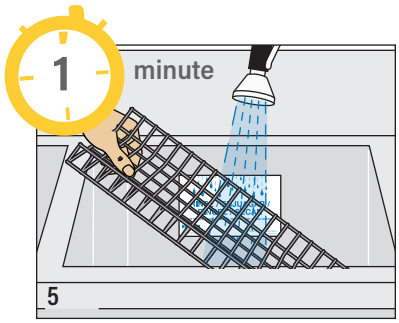

- Place in **WASH** compartment of 3-compartment sink filled with fresh **hot** (110-120°F) APSC Solution

- For heavy soil buildup, pre-spray with Super Contact Cleaner; allow to soak for 10 minutes

- Use Small Wares Cleaning Brush to remove all soil buildup from wire racks; use a NO-SCRATCH Pad to scrub trays

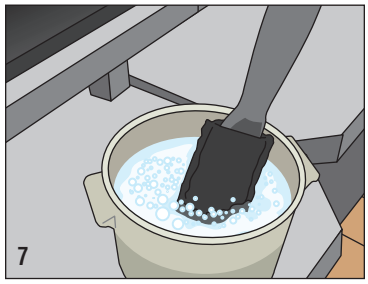

- Rinse and sanitize all items; sanitize in Sanitizer Solution for one minute; allow to air dry

  NOTE: Rotate items to allow cleaning and sanitizing of all surfaces

- Let cabinet cool until **SAFE TO CLEAN** is displayed

- Fill a clean bucket with **hot** (110-120°F) APSC Solution
- Dip Hi-Temp Multi-Use Tool Pad into APSC Solution; shake excess Solution off pad into bucket

  NOTE: Failure to shake out all excess Solution from pad can result in permanent damage to UHC electrical components
