GRILLS—DAILY

QUICK CLEAN/DAILY

SUPPLIES:

KAY® QSR Heat-Activated Equipment Cleaner (HAEC)

ECOLAB® Double-Sided Grill Brush

KAY® Grill Cleaning Pad Holder and KAY® Grill Cleaning Pads

KAY® Hi-Temp Multi-Use Tool

KAY® Hi-Temp Universal Pad (white)

KAY® Hi-Temp Multi-Use Tool Pad (black)

NEXT GEN GRILLS ONLY

Heat-Resistant Gloves (14 inches length)

Other supplies needed:
Clean, Sanitizer-Soaked Grill Cloths
Squeegee
Release Sheet Storage Tray

Extra Dosing Cap
Franke: 224800
H&K: KAY53006951

BEST PRACTICE TIP — When using your clean grill cloth, fold four times and use all sides of the cloth prior to discarding in the soiled towel bucket.
IMPORTANT: The blue dosing cap is reusable, DO NOT discard.

CAUTION: Do not remove grill filters; cleaning without filters can cause severe burns or a fire

EVERY 4 HOURS

- Wash, rinse and sanitize grill tools and grill tool organizer (GTO) at 3-compartment sink or warewasher every 4 hours throughout the day

PREPARE FOR CLEANING

- Gather all tools and Equipment Cleaner
- Put on heat-resistant gloves

QUICK CLEANING THROUGHOUT DAY

2 minutes

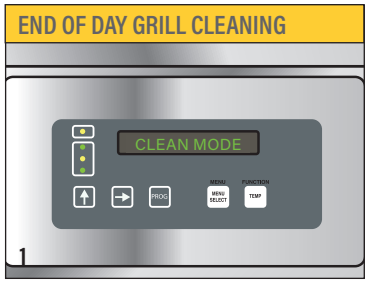

- For quick throughout the day cleaning, clean while at the COOK temperature setting; for example 4:1 or 10:1 setting
- Squeegee lower grill surface
- Dose Cleaner onto lower grill surface until completely covered
  NOTE: 4 doses for all legacy grills, 3 doses for Taylor next gen grills and 4 doses for Garland next gen grills
- Scrub grill with grill tool
- Rinse lower grill surface and upper release sheets with clean, sanitizer-soaked grill cloth

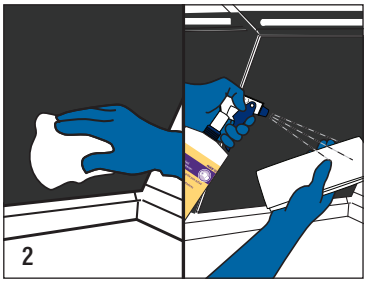

GRILL VIDEO

- Scan QR code above to view grill cleaning procedure video
  NOTE: Taylor grill shown here for demonstration purposes

END OF DAY GRILL CLEANING

- For end of day cleaning, put grill into "CLEAN MODE"
- Immediately begin cleaning the grill after selecting "CLEAN MODE"
  NOTE: Use "CLEAN MODE" for end of day cleaning to prevent alerts and prevent upper platens from going into sleep mode during cleaning

- Wipe upper and lower grill, prior to removing any release sheets, with a clean sanitizer-soaked grill cloth
  NOTE: For ease of use: spray bottle will be used on upper platen and second bottle with dosing cap will be used for lower platen
- Spray a clean, sanitizer-soaked grill cloth once with Cleaner
- Wipe to clean upper release sheets—including sides

GRILLS—DAILY (CONTINUED)

END OF DAY GRILL CLEANING (continued)

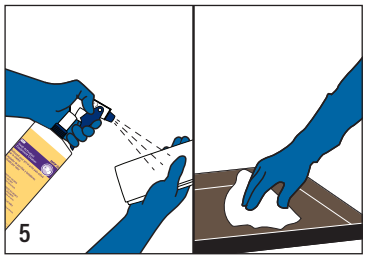

- Rinse upper release sheets with a separate sanitizer-soaked grill cloth; wipe until Cleaner residue has been fully removed

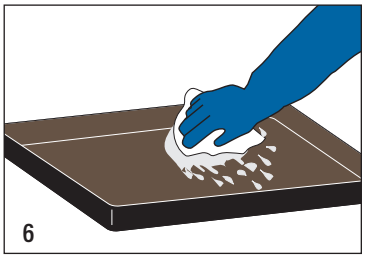

- Remove all clips, bars and removable parts to wash, rinse, and sanitize at 3-compartment sink

NOTE: Release sheets are cleaned at grill only

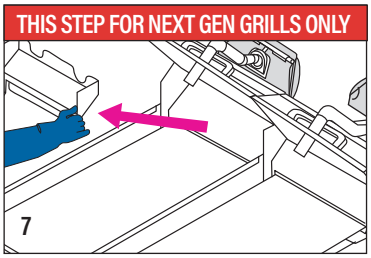

- Place all release sheets, clean side down, flat on release sheet storage tray
- Spray a clean, sanitizer-soaked grill cloth once with Cleaner; wipe soiled side of release sheet until clean

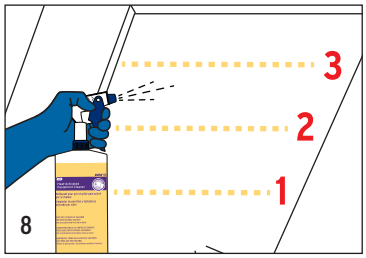

CAUTION: DO NOT fold or crease release sheets; DO NOT clean in 3-compartment sink

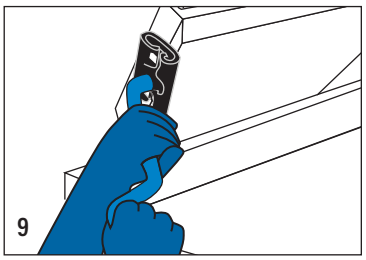

- Rinse off remaining Cleaner with a separate clean sanitizer-soaked grill cloth
- Repeat steps 4-5 for all release sheets

- For Taylor grills, remove backsplash
- For Garland grills, if installed remove splash shields
- Take to 3-compartment sink to wash, rinse and sanitize

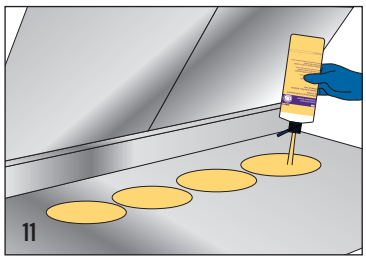

- Spray upper platens with Cleaner, starting with sides and back
- If you have 3 upper platens, lower middle platen first to easily access adjoining sides of left and right platens
- After spraying sides, spray surface of each upper platen 3 times to cover (bottom, middle, top)

- After spraying upper platens, spread Cleaner around with tool to distribute and ensure full coverage

- With dosing cap on, flip open cap
- Invert bottle over grill
- Squeeze bottle to dose Cleaner onto grill; dosing cap will automatically stop when dose is complete
- Keep bottle inverted and allow Cleaner to fill in the dosing cap for next dose

- For both Taylor and Garland legacy grills, apply 4 doses of Cleaner onto lower grill surface

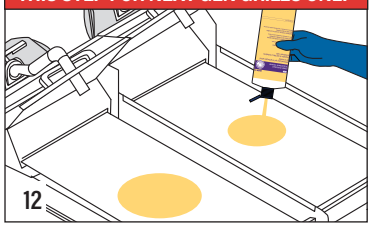

IMPORTANT: Cover entire lower surface of grill with Cleaner, using 4 doses in total

GRILLS—DAILY (CONTINUED)

THIS STEP FOR NEXT GEN GRILLS ONLY

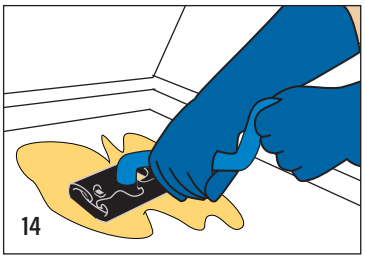

- For Taylor next gen grills, apply one dose of Cleaner on each platen
- Repeat for each lower platen until all of them are fully covered

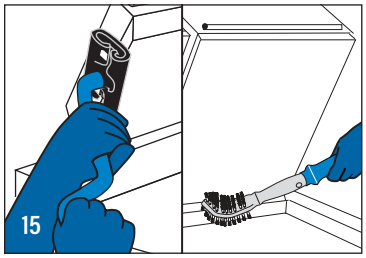

THIS STEP FOR NEXT GEN GRILLS ONLY

- For Garland next gen grills, apply one dose of Cleaner on each platen
- Repeat for each lower platen until all of them are fully covered

- Spread Cleaner thoroughly on lower surface to ensure full coverage

- Scrub upper and lower platen with grill tool; raise and lower upper platens to scrub all sides as needed
- If needed, scrub upper platen with double-sided grill brush
- For Garland next gen grills, select SLEEP button to lower and raise the upper platens to clean all sides

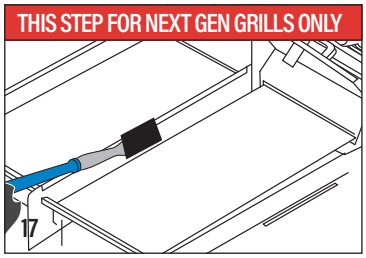

NOTE: Failure to thoroughly clean sides of platens will eventually lead to damage

THIS STEP FOR NEXT GEN GRILLS ONLY

- Remove and empty grease troughs; take to 3-compartment sink and leave at sink until grill cleaning is finished
- Continue through "CLEAN MODE" until lower platen raises

THIS STEP FOR NEXT GEN GRILLS ONLY

- For Taylor next gen grills, clean lower platen sides by pulling out grill and raising lower platens; put black pad on tool
- Once lower platen is raised, spray pad with Cleaner; scrub lower platen sides
- Repeat until sides are fully covered

THIS STEP FOR NEXT GEN GRILLS ONLY

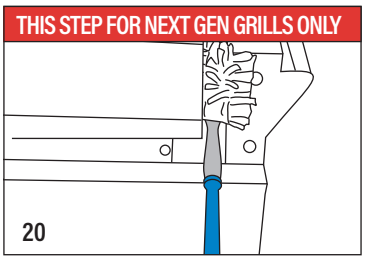

- For Garland next gen grills, clean in between the lower platens; put black pad on tool
- Spray pad with Cleaner and scrub lower platen sides; repeat until all sides are covered

THIS STEP FOR NEXT GEN GRILLS ONLY

- For both Taylor and Garland next gen grills, remove black pad from tool and snap on sanitizer-soaked white pad
- Using tool, clean areas of grill in between platens
- Clean behind platens, backsplash and surrounding areas, such as hood and bull nose

THIS STEP FOR NEXT GEN GRILLS ONLY

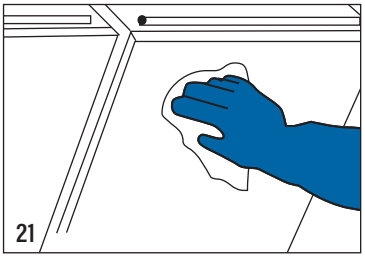

- With grill pulled out, wipe down front and back areas of grill with tool

GRILLS—DAILY (CONTINUED)

QUICK CLEAN/DAILY

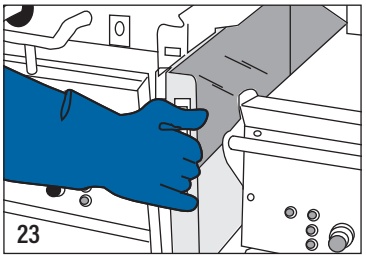

- Rinse upper and lower platens with a clean sanitizer-soaked grill cloth
- Clean surrounding areas such as hood, bull nose and backsplash
- Remember to use a clean side of the cloth with each wiping
- Discard all soiled towels into soiled towel bucket after use

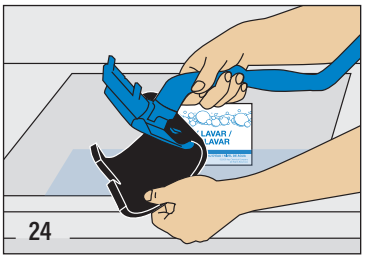

- Reinstall upper release sheets prior to using

  NOTE: To prolong sheet life, install upper release sheets on opposite side than what was previously used for cooking; reinstall black on odd days; gray or brown on even days (see chart on next page)

- Remove and empty grease trough; rinse and replace

- Once tool has cooled, remove pad; wash and rinse thoroughly at 3-compartment sink; flip pad over and replace on tool for next grill cleaning
- Wash, rinse and sanitize all utensils, tools and PPE used to clean grill at 3-compartment sink

This step is required if cooking breakfast meat on iron grill:

- While lower release sheet is on grill, wipe excess grease off with a clean, sanitizer-soaked grill cloth
- Place rinsed side of release sheet onto storage tray
- Spray a clean sanitizer-soaked grill cloth once with Equipment Cleaner; wipe soiled side of release sheet until clean
- Rinse off remaining Cleaner with a separate, clean, sanitizer-soaked grill cloth; repeat for other side of release sheet
- Roll release sheet up and place into storage tube

NOTE: To prolong sheet life, rotate cooking side of upper release sheets every other day

BLACK on odd days; **GREY** or **BROWN** on even days

ODD DAYS | EVEN DAYS
