IMPORTANT: All PlayPlaces must be spot-cleaned throughout the day and thoroughly cleaned and sanitized daily and weekly. Surfaces should be inspected frequently during each shift to check for food spills and soils, trash and overall cleanliness. When using specialty products such as Specialty Cleaner & Polish, Power Pad or NO-SCRATCH Pad, be sure to test in an inconspicuous area prior to use. This procedure covers cleaning and sanitizing regular and toddler PlayPlace equipment. For restaurants with separate interactive games or additional equipment, the same wash, rinse and sanitize procedures should be performed on these areas daily. PlayPlace should be closed during daily and weekly cleaning activities. PlayPlaces should be deep cleaned monthly.

SPOT CLEANING THROUGHOUT DAY

- Spot clean all high-traffic and visibly soiled areas with Rapid MSDC Solution and a clean sanitizer-soaked towel; discard towels into soiled towel bucket after use
- Spray again with Rapid MSDC Solution; allow area to remain wet for 30 seconds; air dry or dry with a paper towel
  NOTE: Pay special attention to handrails and poles, slide entrances, exits and other high-contact areas
- Keep PlayPlace area free from any debris

TOUGH STAINS/GRAFFITI

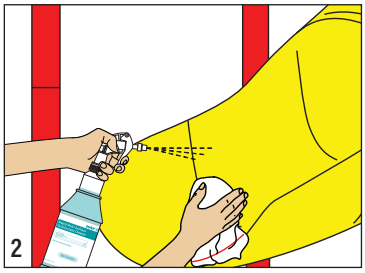

- For tough stains and scuff marks on all PlayPlace surfaces, spray Power Pad with Rapid MSDC Solution; gently buff away stains
- For graffiti removal, spray Power Pad with Specialty Cleaner & Polish; gently buff away stains
- Spray again with Rapid MSDC Solution; air dry or dry with a paper towel

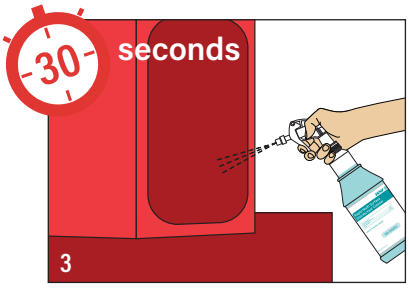

DAILY CLEANING AT CLOSE

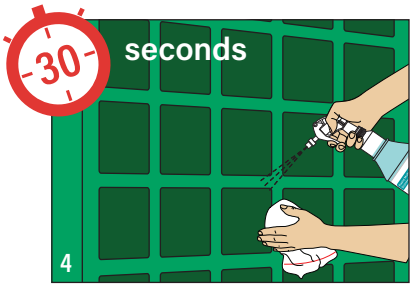

- Crawl through each area of PlayPlace and components to check for debris
- Discard debris in trash receptacle
- A wet/dry vacuum can be used to pick up dirt and debris along cracks and crevices in unit

- Clean inside and outside all surfaces and components using clean sanitizer-soaked towels and Rapid MSDC Solution
- Discard towels into soiled towel bucket after use

- Spray inside and outside all surfaces and components again with Rapid MSDC Solution; allow area to remain wet for 30 seconds
- Air dry or dry with a paper towel
- Discard towels into soiled towel bucket after use
  NOTE: Never use Degreaser Solution or paper towels on dome windows as surfaces may become damaged

- Spray sneaker keeper with Rapid MSDC Solution; wipe with a clean sanitizer-soaked towel
- Spray again with Rapid MSDC Solution; allow area to remain wet for 30 seconds
- Air dry or dry with a paper towel
- Discard towels into soiled towel bucket after use

30 seconds

- Spray all equipment and platforms again with Rapid MSDC Solution; allow area to remain wet for 30 seconds
- Air dry or dry with a paper towel
- When completely dry, replace foam pads in junction boxes

- For high places, dust exterior of toy and components using a clean dry pad and an extension cleaning pole
- Clean exterior by spraying the pad with Rapid MSDC Solution; brush exterior surfaces
- Allow surfaces to air dry

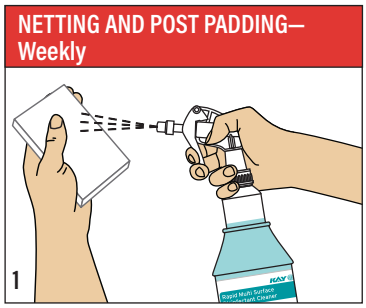

- Sweep or vacuum rubber flooring
- Place wet floor signs around perimeter of area
- Damp mop floors, including rubber floors, with fresh **hot** (110-120°F) FloorCare Solution
  NOTE: Do not allow liquids to soak through flooring materials

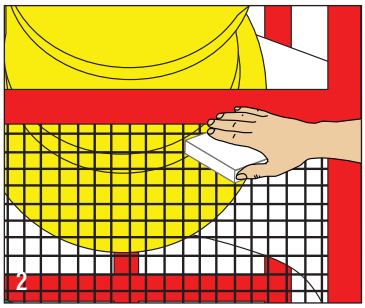

- Deck brush PlayPlace floors, including rubber floors
- Vacuum remaining liquid from PlayPlace floor using a wet-dry vacuum
  NOTE: Remove wet floor sign when floor is completely dry

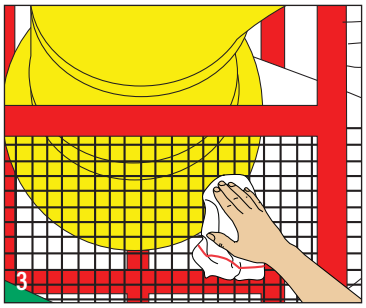

NETTING AND POST PADDING—Weekly

- Spray NO-SCRATCH Pad with Rapid MSDC Solution

- Use moistened NO-SCRATCH Pad to scrub soiled netting and post padding areas until clean

- Use a clean sanitizer-soaked towel to rinse soils and cleaning Solution from netting and post padding; discard towel into soiled towel bucket after use
- Allow to air dry

NOTE: For heavy traffic PlayPlaces, weekly procedures may need to be conducted more frequently. Make sure all components are inspected for broken, cracked or loose parts, and repaired immediately.
NOTE: PlayPlace should be thoroughly cleaned and sanitized monthly, either in-house or by a third-party contractor.
