WINDOWS/GLASS—INTERIOR AND EXTERIOR

DAILY

SUPPLIES:

KAY® Rapid Multi Surface Disinfectant Cleaner Solution

KAY® SolidSense™ All-Purpose Super Concentrate (APSC)

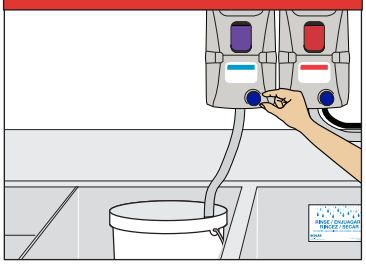

Clean Sanitizer-Soaked Towels

Other supplies needed:
Window Washing Brush
Paper Towels
Wet Floor Sign
Large Bucket
Small & Large Window Squeegees

IMPORTANT: This procedure can be used for cleaning indoor and outdoor windows, except in freezing or raining conditions. Refer to the O & T Manual for winterizing information. Use a wet floor sign as needed when cleaning indoor windows.

BEFORE CLEANING

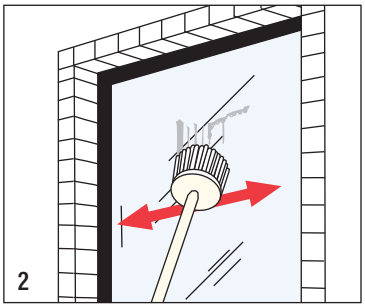

- Fill a bucket 1/4 full with **hot** (110-120 °F) APSC Solution from sink; fill remainder of bucket with **lukewarm** (85-105 °F) water

DAILY

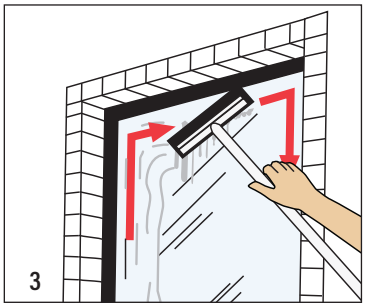

- Place CAUTION WET FLOOR sign near window being cleaned
- Dip brush in APSC Solution and frame the window

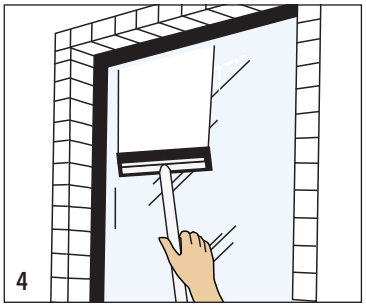

NOTE: Start with inside windows first

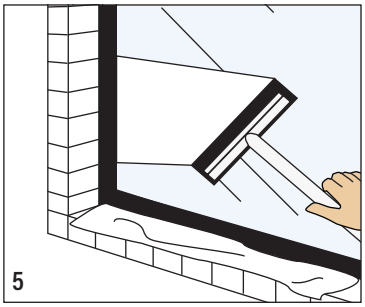

- Wet window with horizontal strokes

- Squeegee edge of window by going around the perimeter

- Place a dry paper towel along base of window to absorb runoff
- Start at top and pull squeegee down to middle of window

- Wipe squeegee clean after each stroke with a clean sanitizer-soaked towel; discard towel into soiled towel bucket after use
- Squeegee bottom half of window

WINDOWS/GLASS—INTERIOR AND EXTERIOR (CONTINUED)

DAILY

- On the last pass at bottom of window, follow path of squeegee with a clean sanitizer-soaked towel on window bars or metal parts; discard towel into soiled towel bucket after use

  NOTE: This keeps Solution from running onto window ledge

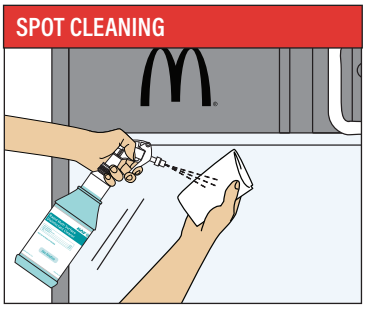

- Use a clean paper towel to wipe window bars or metal parts and to remove excess moisture from window ledges or decorative panels below windows
- Mop up any cleaning Solution that may have dipped onto floor; place CAUTION WET FLOOR signs around perimeter of area being mopped

- Repeat steps 1-7 for all interior and exterior windows

- Thoroughly rinse tools in mop sink after cleaning windows; return to storage

- Spray paper towel with Rapid MSDC Solution
- Wipe window or glass to remove soil
