BEVERAGE EQUIPMENT

For use on blended ice pitchers and coffee and tea brewing equipment

DAILY/WEEKLY

SUPPLIES:

KAY® SolidSense™ All-Purpose Super Concentrate (APSC)

KAY® SolidSense™ Sanitizer

Clean, Sanitizer-Soaked Towels

KAY® Rapid Multi Surface Disinfectant Cleaner Solution

KAY® Filter Pouch Cleaner (baskets, pots, urns, cooler)

ReadyDose™ KAY® Beverage Equipment Cleaner (BIM pitchers)

Other supplies needed:
Deliming Tool (Bunn Brewers only)
Beverage Cleaning Brushes

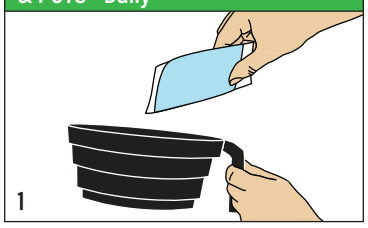

IMPORTANT: This procedure covers cleaning and sanitizing procedures for beverage urns, tea brewer brew baskets, coffee machine brew baskets and coffee pots. See Preventative Maintenance Manual for monthly maintenance procedures.

NOTE: Keep Filter Pouch Cleaner stored in zip bag. The recommendations in this procedure are for daily cleaning. If procedures are not followed daily or in cases of heavy soil build-up, the recovery procedure should be followed (see step 3 below).

QUICK REFERENCE

WARE	PRODUCT	CLEANING FREQUENCY
Tea Urn/Spigots	KAY® Filter Pouch Cleaner	As Needed
Tea Brew Baskets	KAY® Filter Pouch Cleaner	Weekly
Coffee Brew Baskets	KAY® Filter Pouch Cleaner	Daily
Coffee Pots	KAY® Filter Pouch Cleaner	Daily
BIM Pitcher	KAY® Beverage Equipment Cleaner	Every 4 Hours and Daily

COFFEE MACHINE BREW BASKETS & POTS—Daily

CAUTION: Use caution when transporting **hot** pot from one area to another

NOTE: Coffee pots and brew baskets should be rinsed at 3-compartment sink before a new pot is brewed

- Discard coffee grounds from brew basket and empty coffee pot; place one pouch of Filter Pouch Cleaner flat in brew basket and return brew basket to brewer
- Place pot on coffee brewer warmer to clean
- Press brew switch to brew a full pot of cleaner

- Once brew cycle is complete, take pot to 3-compartment sink and allow Solution to sit for 10 minutes

  NOTE: Solution can be used in up to two pots
- After 10 minute soak, transfer Solution into second pot and allow to sit for 10 minutes
- Remove Filter Pouch Cleaner from brew basket and discard
- Take brew basket to 3-compartment sink

- Discard Solution from pots into rinse compartment; rinse and sanitize brew basket and pots for a minimum of one minute; invert brew basket and coffee pots and allow to air dry; or use warewash machine

  NOTE: Recovery Procedure: For tough stains and/or when daily cleaning has not been completed, use one Filter Pouch Cleaner per pot. At 3-compartment sink, scrub pot and lip at neck of pot with curved coffee pot brush if needed; rinse and sanitize for a minimum of one minute; invert and allow to air dry

BEVERAGE EQUIPMENT (CONTINUED)

DAILY/WEEKLY

NOTE: Deliming tool is used on Bunn® Coffee Brewers only

- Turn brewer OFF
- Remove spray head fitting; insert short end of deliming tool into each of the five holes in the spray head; ensure each hole is open and free of mineral deposits
- Insert long end of deliming tool into spray head fitting; rotate to remove mineral deposits

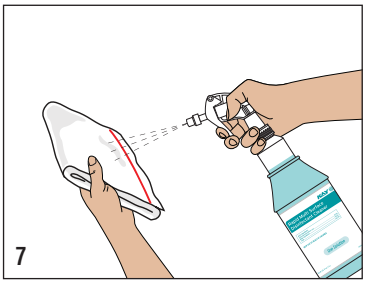

NOTE: Deliming tool is used on Bunn® Coffee Brewers only

- Insert deliming tool into hot water dispenser nozzle to remove mineral deposits
- Remove spray head and take to 3-compartment sink; wash, rinse and sanitize for a minimum of one minute; allow to air dry
- Replace spray head fitting

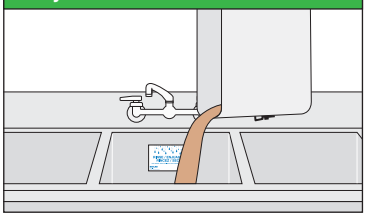

- Spray a clean sanitizer-soaked towel with Rapid MSDC Solution; wipe spray head panel; discard towel into soiled towel bucket after use

- Spray a clean sanitizer-soaked towel with Rapid MSDC Solution and use to wipe exterior of coffee machine; discard towel into soiled towel bucket after use
- Turn brewer ON

URNS, BREW BASKETS AND LIDS—Daily

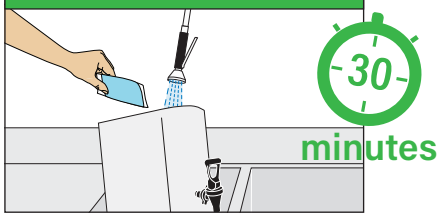

CAUTION: Use caution when transporting **hot** urn from one area to another

- Take urn lid and brew basket to 3-compartment sink
- Discard tea bag from brew basket and discard remaining tea from urn; wash, rinse and sanitize urn lid, brew basket and urn

NOTE: Brew baskets and tea urn lids should be washed, rinsed and sanitized on a daily basis; tea urns with liners should be washed, rinsed and sanitized weekly

BREW BASKETS, LIDS, TEA AND COFFEE URNS AND URN SPIGOTS—Weekly

- Place 3 Filter Pouch Cleaner pouches in bottom of urn

NOTE: This procedure applies to lids, tea urns and equipment

- Fill urn with **hot** (110-120°F) water from 3-compartment sink
- Allow Solution to remain in urn for 30 minutes

BEVERAGE EQUIPMENT (CONTINUED)

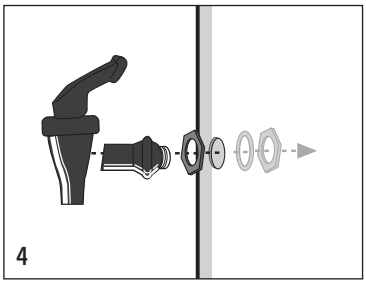

DAILY/WEEKLY

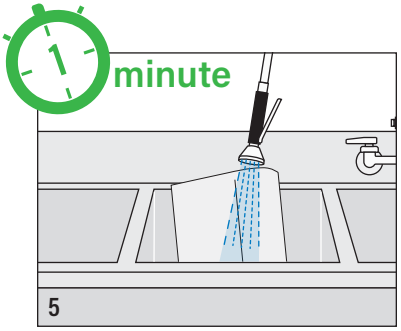

- Dispense a small amount of Filter Pouch Cleaner Solution through urn dispenser spigot to allow product contact with the spigot
- Place brew basket in urn

- Allow Solution to remain in urn for 30 minutes; brush sides of urn to clean
- Use Solution from urn and a brush to clean brew basket at 3-compartment sink
- Rinse and sanitize brew basket a minimum of one minute; allow to air dry
- Discard Filter Pouch Cleaner Solution in rinse compartment by dispensing through dispenser spigot

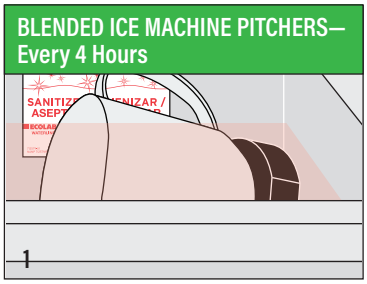

- Remove and disassemble dispenser spigot from urn
  NOTE: Remove o-ring for cleaning
- Brush spigot interior with a beverage cleaning brush

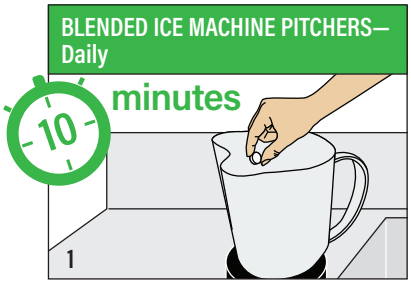

- Rinse urn and parts in **lukewarm** (85-105°F) water in rinse compartment
- Submerge urn and parts in Sanitizer Solution for a minimum of one minute
  NOTE: If urn is not fully submerged, rotate after one minute
- Remove items and allow to air dry

BLENDED ICE MACHINE PITCHERS—Every 4 Hours

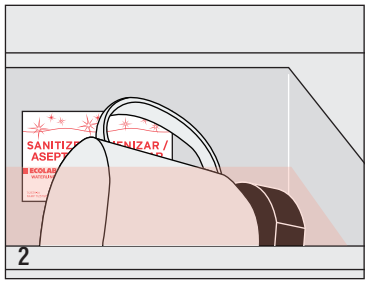

- Take blender pitcher to 3-compartment sink wash, rinse and sanitize. Allow to air dry.

BLENDED ICE MACHINE PITCHERS—Daily

- Take blender pitcher to 3-compartment sink
- Fill pitcher with **hot** (110-120°F) water and place one Beverage Equipment Cleaner tablet into pitcher; allow to soak 10 minutes
- Use a clean sanitizer-soaked towel to wipe clean if necessary; discard towel into soiled towel bucket after use

- Discard Solution; rinse and sanitize pitcher in 3-compartment sink or warewash machine
- Allow to air dry
